

SpotLight

POSITIVE BEHAVIOR INTERVENTION AND SUPPORT

SpotLight is a fully integrated positive behavior intervention and support system within Infinite Campus. District Dashboard reports both Major behaviors and Classroom behaviors across the district with school totals. Admin Dashboard reports both Major behaviors and Classroom behaviors for the school. Teacher tools include a Classroom Dashboard which provides a summary of classroom behavior activity, a Student Overview panel, and several ways to enter both Positive and Minor behaviors for single or multiple students. The School Store can be used to allow students to purchase items using their collected behavior points.

Benefits

- Fully integrated with Infinite Campus
- Major & Classroom behaviors reported in graphs and tables with filtering options at school level to see breakdown of Who, What, When, Where, and Why
- Major student behavior can be drilled down into Behavior Management
- Pre-built reports to compare data across multiple years
- Links to ETCH tool for behavior errors/reports (if the district has also purchased ETCH)
- Custom Elements functionality allow major behavior Location and Motivation values to be more granularly defined using school defined values
- Powerful Student Overview and Teacher Overview pages
- Customizable settings at school level

Spotlight is a great way for schools to keep up with the Minor infractions by a student. Schools are able to customize to their own needs. I LOVE the positive behavior option! Students love to be recognized and this is a perfect way. Having the Store Options is a great way to include some lessons while students are getting recognized.

Forsyth County Schools

Features

District Dashboard

Analyze district behavior for both Major and Classroom comparing school summaries reported by major demographics, five major programs, and when & where events occurred.

School Dashboard

Analyze school Major and Classroom behavior, including top behaviors, latest referrals, teacher counts, filters/graphs by Who, What, When & Where.

Teacher Tools

Classroom Dashboard

Summary of all activity for Positive & Minor behaviors. Add Positive behaviors to individuals and multiple students. Student Summary page showing all classroom behaviors for both their classroom and other classrooms.

Classroom Focus

Kid-friendly way for teachers to enter and track classroom behaviors, both Positive and Minor. Customizable features including student avatars.

Mobile Entry

Designed for quick entry of a classroom behavior from a mobile device. Supports use of the camera on the device to scan a barcode for a quick student entry.

Reporting

Pre-built reports are available to compare major behaviors across multiple years. Report Builder provides users ability to build, save, and load their own custom reports.
