BTAM

Behavioral Threat Assessment Manager

BTAM is a purpose-built software solution designed to support school districts in conducting, documenting, and managing behavioral threat assessments. BTAM is fully integrated with Infinite Campus.

With increasing concern over student safety, BTAM empowers school staff, counselors, administrators, and other staff with the tools they need to identify concerning behaviors early and respond proactively—while staying compliant and organized.

Benefits

- Helps schools take a preventative, rather than reactive, approach to possible threats.
- Reduces documentation errors and ensures consistent precedures across teams.
- Eliminates the need for a third party tracking system or paper documentation.

Features

BTAM and Staff Dashboards
User-friendly dashboards to create, manage, and monitor BTAM entries.

Centralized Management
Securely document and manage threat assessments in one unified platform -- within Infinite Campus.

Multi-User Collaboration
Enable all staff to collaborate securely and in real time.

Data-Driven Insights
Track patterns and trends across schools and districts with built-in analytics and reporting tools.
