SPOTLIGHT

Positive Behavior Intervention and Support

SpotLight is a fully integrated Positive Behavior Interventions and Supports (PBIS) solution within Infinite Campus. It helps districts and schools track, manage, and recognize student behavior through comprehensive dashboards, behavior reporting tools, and positive reinforcement features. SpotLight empowers administrators and teachers with real-time insights while encouraging positive student engagement through a customizable School Store and behavior point system.

TOP FEATURES

DISTRICT DASHBOARD

Analyze district behavior for both major and classroom comparing school summaries reported by major demographics, five major programs, and when & where events occurred.

SCHOOL DASHBOARD

Analyze school major and classroom behavior, including top behaviors, latest referrals, teacher counts, filters/graphs by Who, What, When & Where.

TEACHER TOOLS

Classroom Dashboard
Summary of all activity for positive & minor behaviors. Add positive behaviors to individuals and multiple students. Student Summary page showing all classroom behaviors for both their classroom and other classrooms.

Classroom Focus
Kid-friendly way for teachers to enter and track classroom behaviors, both positive and minor. Customizable features including student avatars.

MOBILE ENTRY

Designed for quick entry of a classroom behavior from a mobile device. Supports use of the camera on the device to scan a barcode for a quick student entry.

REPORTING

Pre-built reports are available to compare major behaviors across multiple years. Report Builder provides users the ability to build, save, and load their own custom reports.

BENEFITS

- Fully integrated with Infinite Campus
- Major & classroom behaviors reported in graphs and tables with filtering options at school level to see breakdown of Who, What, When, Where, and Why
- Major student behavior can be drilled down into Behavior Management
- Links to ETCH tool for behavior errors/reports (if the district has also purchased ETCH)
- Custom Elements functionality allow major behavior Location and Motivation values to be more granularly defined using school defined values
