GEM

GIFTED ELIGIBILITY MANAGER

GEM is a tool to track Gifted Eligibility information for students. Customizable assessment matrix defines criteria for the GEM module to calculate a student's gifted eligibility. GEM automatically updates gifted fields for state reporting purposes based on data input.

Benefits

- Fully integrated with Infinite Campus
- Customized settings including Assessment Matrix
- Automatically updates gifted fields for state reporting
- Customizable Eligibility form and Parent letter
- Helpful reports such as Screening data (date range driven), Referral data (date range driven), Reciprocity students, Military students and High Potential students. Both the standard Eligibility Report and the District Customized version of the Eligibility Report.

Features

GEM Dashboard
Track students last completed process entered in the GEM module.

Screening Panel
Track screening dates, screening assessments, source of gifted referral, and parent consent.

Reciprocity Panel
Track reciprocity district or military base, reciprocity date, and testing information for these transfer students.

Testing Panel
Enter assessment types and scores to automatically calculate a student's gifted eligibility based on the customizable assessment matrix.

Eligibility Panel
Track gifted eligibility, parent consent to serve, gifted status, effective date, and gifted service plan. Data is automatically written to line of enrollment for State Reporting.

GEM Notes
Area to input notes concerning the student's gifted eligibility information. .

High Potential Panel
Track high potential or high achieving students.

Assessment Matrix
Create custom text in GEM to predefine the available assessment options on the testing panel.

GEM Admin
Ability for district staff to enter prior year(s) historical data to keep track within the GEM module.

> "
> We just purchased GEM and my Gifted Team has taken off running with it! They are so excited about the features and possibilities of this product. Gone are the days of keeping a running excel spreadsheet on SharePoint.
